

Checklist for Completion: Goals and Outcomes

If you do not yet have a program running, a completion of this component means you have:

- Developed a clear health goal(s) and selected behaviors and determinants to address with your program.
- Developed a clear set of desired outcome statements that are focused on the behaviors and determinants you want to address with your program.
- Summarized and documented all your work in a BDI Logic model and in the SMART Desired Outcomes Statement Tool.

If you already have a program running, you have...

- Developed a clear health goal(s) and selected behaviors and determinants to address with your program.
- Developed a clear set of desired outcome statements that are focused on the behaviors and determinants you want to address with your program.
- Summarized and documented all your work in a BDI Logic model and in the SMART Desired Outcomes Statement Tool.
- Described how selected risk and protective factors and behaviors will change by writing short and long-term BDI logic model based objectives and goals.
- Identified the causal relationships between teen pregnancy, behavior, risk and protective factors, and interventions through the development of a BDI Logic Model.
- Assessed the relevance and changeability of risk and protective factors identified in the BDI logic model.
